

Filtermist Coolant Pump

Features of the Pneumaster air powered liquid pump

Precision made stainless steel
Entire pump (except ball valve, float and O-ring) is made from stainless steel.

Easy to fit

Screws into threaded tap hole in top of standard metal 205 litre drum.

Compressed air powered

The Pneumaster pump is powered by compressed air.

Safe to use

The Pneumaster has no moving parts and is equipped with an automatic shut-off valve which activates when drum is full.

Fast, powerful action

Will fill a 205 litre drum in just 90 seconds.

Versatile

Designed to collect liquid borne sludge, metal chips and other debris.

For best results

Use filtered air 60-115psi, 10mm bore hose. Use only with sound, undented steel drums.

Caution

Not suitable for flammable or volatile substances.

Pneumaster Pump Kit
