

Quality Policy Statement

Filtermist International Ltd recognises that its customers' requirements for the quality and reliability of its products and the punctuality of their delivery are of paramount importance. Filtermist International Ltd's aims and objectives are to operate practices and procedures which ensure that these requirements are achieved.

Responsibility for these practices rests with the Executive Directors. They ensure, through their Management Team, that the practices and procedures, which are incorporated into the Company's documentation systems and which are established through the Quality Management System, are maintained and continually reviewed.

The Directors are committed to ensuring the continual improvement of the Quality Management System (which is in line with the requirements of BS EN ISO 9001: 2015) and the promotion of a culture of continual improvement throughout the Company.

In addition, Filtermist International Ltd recognises that its organisational goals and the expectations and needs of its customers may vary from time to time and will therefore review its policy on quality at regular intervals to ensure its continuing suitability.

J.R. Stansfield
Managing Director
